WEB DEVELOPMENT

SURAJ VERMA

WORK EXPERIENCE

LARAVEL FULL STACK DEVELOPER

Multigraphics, okhla   1+ years

Full Stack Development:

Backend Development:

- **Laravel Framework:** Collaborated with a team to architect and implement backend functionality for a Laravel-based website. Developed CRUD (Create, Read, Update, Delete) operations to manage data efficiently.
- **Database Management:** Utilized MySQL for efficient database management, ensuring data integrity and optimal application performance.

Frontend Development:

- HTML & CSS: Developed visually appealing and responsive user interfaces using HTML and CSS.
- Bootstrap Framework: Leveraged Bootstrap to streamline frontend development, ensuring consistency and responsiveness across various devices.
- JavaScript: Implemented JavaScript to enhance user experience with interactive and dynamic functionality.

Project:

- Self-Initiated Website Development & Company Projects Contributions: I independently developed a website from scratch, incorporating content and styles. Additionally, I contributed to various projects within the company. Primarily, I engineered a CRUD (Create, Read, Update, Delete) system, enabling image storage with the inclusion of an active and inactive status feature for employees.
- Moreover, I designed and implemented a Ticket CRUD system within an Employee Relationship Management (ERM) framework, which is crucial for efficient workflow management.

Version Control:

- Managed project repositories and facilitated collaboration using Git, ensuring code integrity and smooth team workflow.

Problem Solving and Adaptability:

- Demonstrated strong problem-solving skills in resolving technical issues encountered during development.
- Adapted quickly to changing project requirements, ensuring timely delivery of project milestones and effective project management.

EXPERIENCE

- Internship (6 Months):
  - Full Stack Developer intern at [Multigraphics].
  - Hands-on experience in frontend and backend technologies.
  - Contributed to various projects using HTML, CSS, JavaScript, Laravel, and MySQL.
- Job (6.5 Months):
  - Full Stack Developer at [Multigraphics].
  - Responsible for designing, developing, and maintaining web applications.
  - Worked on projects with a focus on meeting deadlines and quality standards.

ABOUT

I'm a dynamic Full Stack Developer with hands-on experience in frontend and backend technologies. Proficient in HTML, CSS, JavaScript, Bootstrap, Laravel, and MySQL, I excel in creating intuitive and efficient web solutions.
Outside of coding, I enjoy hiking and exploring new trails in my free time. I'm passionate about bringing my energy and expertise to a dynamic startup environment, where I can contribute to innovative projects and drive success.
